

The [InCARE project](#) (co-funded by the European Union) is inviting you to share your point of view through a survey on experiences, attitudes, and expectations on long-term care. We also hope for your support in disseminating the survey to ensure as many people as possible are given the opportunity to express their views.

### **What is this survey about?**

We would like to understand how people view care for older people with support needs. How do they want those close to them or themselves to be looked after, should they need it? What are their experiences with receiving or providing care? And what are their expectations for the future?

### **What is the purpose of this study?**

Findings from this study will be used to raise awareness of the challenges faced by older people with care needs and their families, and to advocate for policies that can support them. We will also use the results to directly inform the design of socially innovative long-term care service pilots in 3 countries.

### **How can you contribute?**

- If you are able and willing to contribute, you can answer the survey directly [here](#). This should not take more than 20 minutes of your time.
- We would be grateful if you could disseminate the survey as widely as possible within your own network, by sharing this link ([https://lse.eu.qualtrics.com/jfe/form/SV\\_6nc3RoO51iB0Bng](https://lse.eu.qualtrics.com/jfe/form/SV_6nc3RoO51iB0Bng)), or via social media (on [Twitter](#) or on [Facebook](#)).

Ensuring all those who need it have access to high quality, affordable long-term care is a major challenge at the global level. Policy debates are ongoing on how to shape long-term care systems in the future: it is essential that people are given a voice and this survey will contribute to it.
