LOOKING FOR CANCER SURVIVORS (65 YEARS+) FOR STUDY!

JOURNEY MAPPING IN OLDER ADULTS with cancer through patient-reported data

Study approved by the University of British Columbia Research Ethics Board
Led by Dr. Jae-Yung Kwon, School of Nursing, University of Victoria

DO YOU:

- FIND THAT YOU ARE ABLE TO DO LESS THAN YOU USED TO DO?
- FIND THAT CANCER HAS TAKEN A TOLL ON WHAT YOU ARE ABLE TO ACCOMPLISH?
- FEEL ANY DECREASES IN ENERGY LEVEL SINCE RECEIVING CANCER TREATMENT?

IF SO, THIS STUDY COULD BE FOR YOU!

PURPOSE OF THE STUDY

Develop journey maps to explore opportunities for assessing the risks of frailty and improving the psychosocial well-being of older adults throughout their cancer experiences. The journey maps will be used as educational tools to inform the development of resources for clinicians.

WHO IS ELIGIBLE TO PARTICIPATE?

INDIVIDUALS WHO:

- Were diagnosed with cancer at or after 65 years old
- Have completed or are currently receiving cancer treatment
- Are current residents of Canada

WHAT'S INVOLVED? A one-hour Zoom interview

For Your Participation In This Study, As A Sign Of Appreciation, You Will Be Given A \$50 Gift Card For Save-on-foods, Safeway, Or President's Choice.
